1. Discussed the terminology "access means" in claim 12 and determined that such terminology would be changed to actuating means. The function of the actuating means was discussed and it was agreed to provide language defining the function of the actuating means (see the attached Examiner's Amendment). The examiner stated an Examiner's Amendment would be prepared incorporating the above changes in order to overcome the rejection of claim 12 under 35 USC 112 second paragraph. The examiner also stated that these changes would place the application in condition for allowance.
